

Go Green...LCCAA Head Start is Collecting Caps!

LCCAA Head Start is in partnering with Green Tree Plastics as part of the ABC Promise Partnership to teach children about recycling, lifelong habits of green living and taking care of our environment. As part of this partnership, we will be collecting plastic caps and lids that will be melted and turned into recyclable lumber, which will be used to make picnic tables for our playgrounds at our Head Start facilities.

As part of the Head Start Performance Standards, parent engagement is a huge component of the program, and we would love your participation encouraging your child to assist in collecting caps at home. Make it a learning experience with your child by sorting by color, shapes, counting the caps, etc. We would also encourage parents by asking family, friends, co-workers, church congregations, etc. to assist in saving caps to make this a successful project.

Caps can be turned in to your child's classroom or at any of our Head Start facilities...Thanks for Your Support!
