Dear Families,

This packet is to help support your child's learning at home during this time. Included are resources you may need to complete the suggested activities. Your child should only need a pencil, crayons, and scissors and attached cards that can be cut out for the different games.

There is also a list of great educational websites, apps and recipes that can be utilized. We highly suggest reading books with your child daily to foster language development.

If you would like additional activities or have any questions, please reach out to your building administrator.

Playdoh Recipes

BASIC PLAYDOH

What you Need:

2 cups of flour, I cup of salt, 4 tsp. of cream of tartar, 2 cups of water, 2 Tbsp. of vegetable oil, and food coloring or liquid watercolor

How to Make it:

Measure and mix all ingredients together in a saucepan off the heat until all the clumps are gone. Put it on the stove and set it to a medium heat. Continuously stir the mixture. When it pulls away from the sides of the pan and forms one large ball, it is done! If any of the dough is sticky it needs to cook a bit longer. Let it cool. Knead the dough and have FUN! Once completely cooled, store the dough in a air tight bag (no need to refrigerate).

FOOD COLORING TRICKS

What you can use:

Food coloring (sometimes the Dollar Tree has it)

- Liquid watercolor
- Gel food coloring
- Kool-Aid

FUN MIX-INS

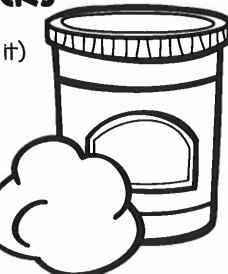

What you can use:

- Glitter (fine, small, or themed)
- Real sprinkles
- Vanilla or other extracts to make it smell yummy
- Cinnamon or other spices

FUN TOOLS & TOYS

- Rolling pin
- Potato masher
- Kid knife
- Cookie cutters
- Toothpicks
- Plastic animals
- Beads
 - Buttons

- Sticks
- Rocks
- Scissors
- Pipe cleaners

science sensory play

OOBFECK

What you Need:

Corn starch, water, food coloring (optional)

How to Make it:

Mix together one part water and two parts corn starch (ex: 14 cup water and 1/2 cup corn starch). Add food coloring to the water to make it different colors.

Play!

Clean Up Hint: Let the oobleck dry completely. Once dry it will come off the container in big chunks making it much easier to clean up.

ERUPTING POTIONS

What you Need:

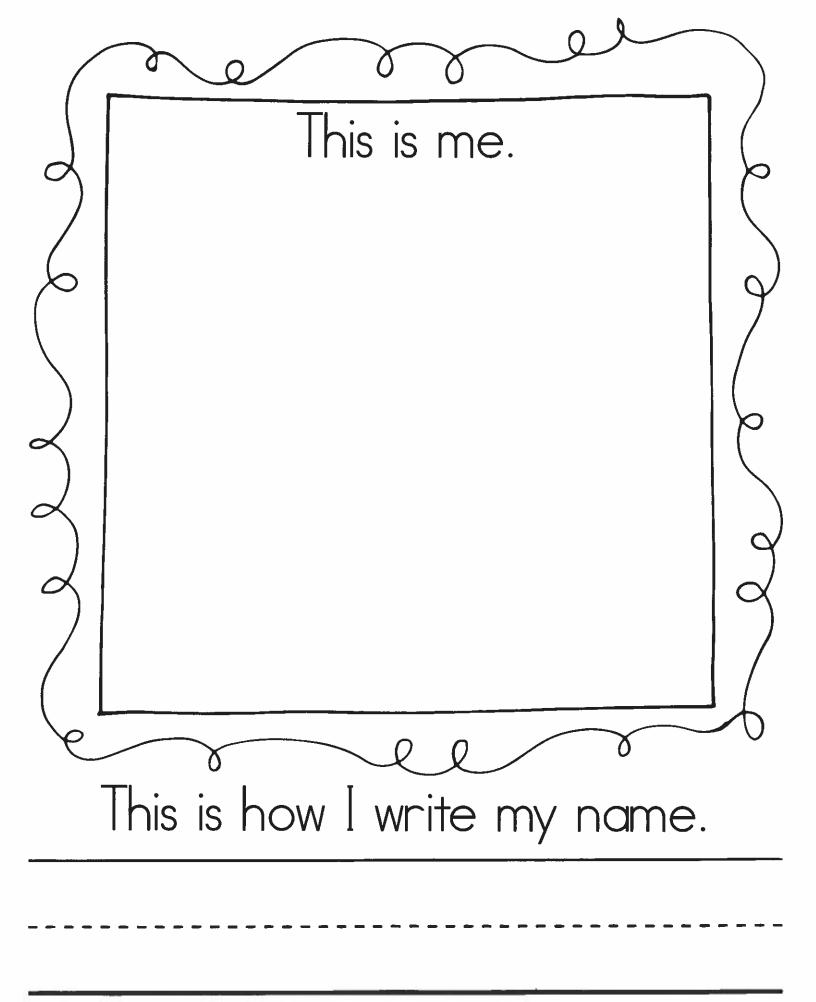

Baking soda, vinegar, food coloring, plastic tub, containers, towel, droppers or squirt bottles

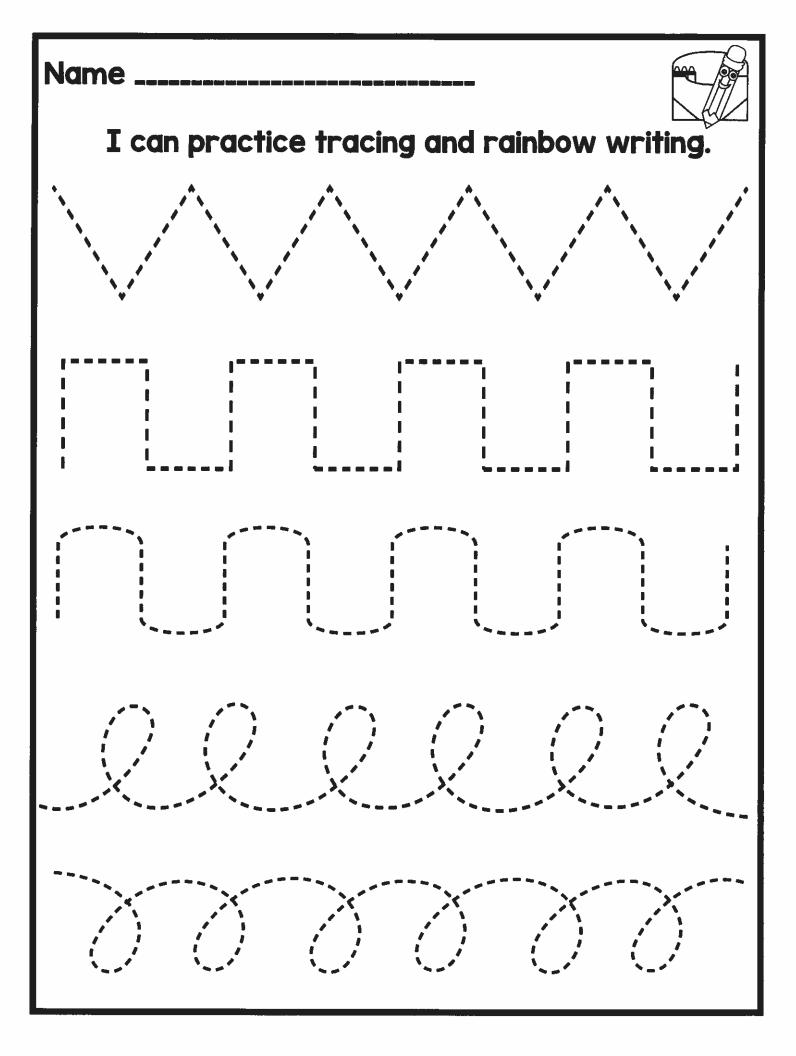

Set Up:

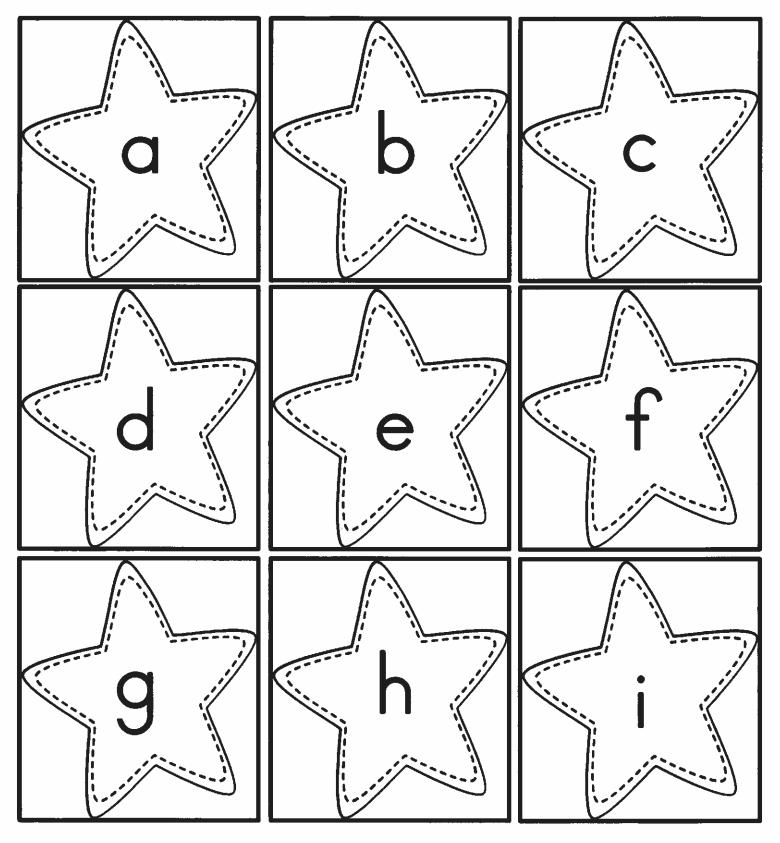

Place different size bowls, ice cube trays, muffins tins, or cups in a plastic tub. Place a towel under the tub. Place a few spoonfuls of baking soda in each bowl. Fill the bottles with vinegar. Add food coloring to color the liquid (optional).

Play!

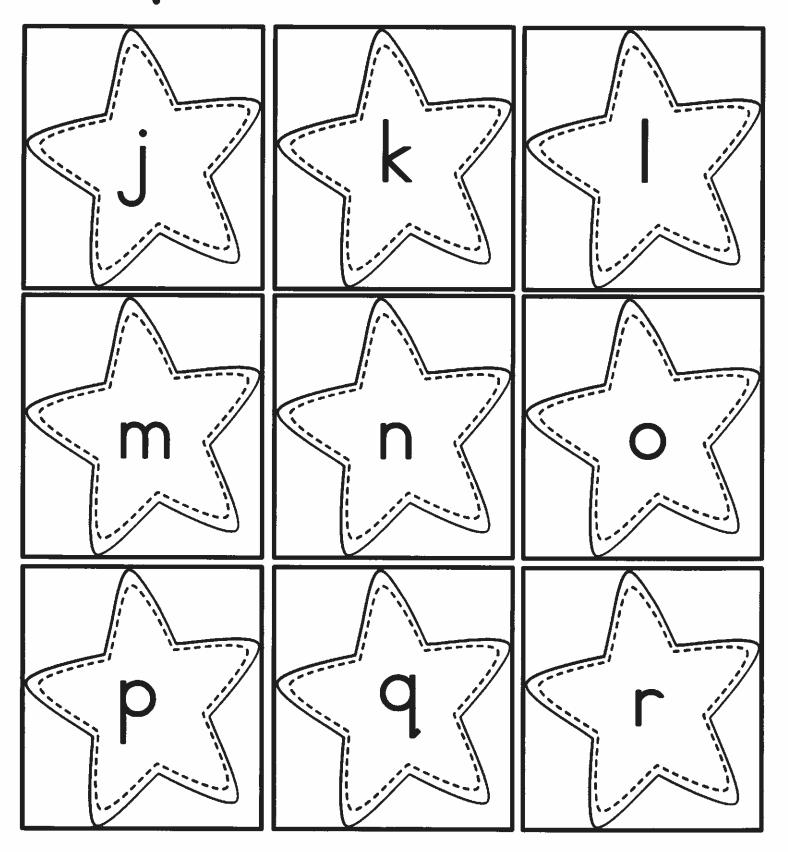

Squirt the potion with the vinegar and watch it erupt! Once the liquid is covering the bottom of the bin, dump out the liquid and make it erupt again! Observe how it changes and the colors change.
